BUSINESS MANAGER
Carlo Castiglione

**It's not for everyone to
be a TRADESMAN.**

This trade has supported my family for my last 37 years. I am a 3rd generation member and have always been grateful for the opportunity to carry on the traditions of my craft and help others along the way. This Union, Local 98 has supported working men and women since 1893. We are a melting pot even when it was unpopular in this country. At the same time, we protect the health of a nation, whether it's a pandemic or a sunny day.

College is not the only answer to a good life. Check us out and if you are working non-union maybe looking to advance your skills and a better future. Give us a holler at the hall.
